IMPORTANCE OF HOME INSPECTIONS**

FHA DOES NOT WARRANT THE VALUE OF THE CONDITION OF A HOME! While FHA requires the lender to have an appraiser determine the value of the property, it is an estimate only and is used to determine the amount of the mortgage FHA will insure and if the condition of the property make it eligible for FHA mortgage insurance. It is not, however, a guarantee that the property is free of defects.

As the purchaser, YOU should carefully examine the property or have it inspected by a qualified home inspection company to make sure that the condition is acceptable to you. You should do this before you sign the sales contract or make the contract contingent on the inspection. If repairs are needed, you may negotiate with the owner about having the faults corrected.

There is no requirement that you hire an inspector. If you choose to, the cost of the inspection up to \$200.00 may be included in your mortgage loan. Names of home inspections companies can be found in the yellow pages of your telephone directory under the heading "Home Inspection Service." I/We have carefully read this notice and fully understand the FHA will not perform a home inspection nor guarantee the price or condition of the property we are purchasing.
